## ST. CROIX RIVER INN IS SERVING CUPCAKES FOR BREAKFAST

When you're 100 years old, you can do whatever you want!

OSCEOLA, WI, January, 2008—In honor of its centennial, the St. Croix River Inn is inviting guests to join in the celebration, take advantage of some great offers and indulge in a cupcake with breakfast!

Originally known as the Stoneleigh, this home built of limestone was constructed on the bluff of the St. Croix River in 1908. With the help of architects and contractors, the personal residence was carefully transformed into the St. Croix River Inn and opened its doors to the public in 1984. Now, 100 years after the first stone was placed, we are excited to celebrate this momentous anniversary of a home which has served as a bedrock within the St. Croix Valley.

Special promotions also include our "*Centennial Seconds*" room rate. Now thru April, guests will enjoy a second night for \$100. Six of the seven guestrooms look out upon our focal point - the peaceful, upper St. Croix River. Here, nature's splendor offers a relaxing respite from the pressures of everyday living and the "*little luxuries*" like fireplaces, jetted tubs, bathrobes, bar fridges and more ensure a memorable stay.

For the ultimate luxury getaway, reserve the newly opened Cascade Suite featuring an amazing tub-side waterfall, multi-jetted shower, and priceless views. Whichever room you choose, awaken refreshed and savor the flavors of a gourmet breakfast served privately to your room.

Reserve your stay in 2008 and receive an elegant gift and keepsake we've designed as a thank you for sharing in this milestone celebration. The St. Croix River Inn is a jewel of an inn, a place to have your cake and eat it too!
